

My Daily Jobs

A personal job sheet for every user. Find your name, keep your page, and tick off your jobs as you complete them each day.

1. Find your page — users are listed alphabetically, and the index is on the next page.
2. Your jobs are grouped by the module where you do them.
3. The coloured tag tells you how often the job is expected.
4. If a job on your page is not yours, or a job you do is missing, tell your supervisor — your system access needs correcting.

How often should I do each job?

DAILY	Do this every working day.
SHIFT	Do this once in every shift you work.
EVENT	Do this each time it happens — a vehicle arrives, a machine breaks down, an order comes in.
PERIODIC	Master data and settings. Only when something changes — not a daily job.

Index of users

Accounts with no job sheet

NAME	EMAIL	REASON
Amit Pal Singh	amitpaulsingh7@gmail.com	Superuser - full access, no group tasks
Bhupinder Singh	bhupinder@jivo.in	Superuser - full access, no group tasks
grpo	grpo@jivo.in	No permissions assigned yet
Jivo	jivo@jivo.in	No permissions assigned yet
Naresh Kumar	dev01@jivo.in	Superuser - full access, no group tasks
nk	nk124@jivo.in	Superuser - full access, no group tasks
nk	nk@jivo.in	Superuser - full access, no group tasks
Purchase	purchase@jivo.in	No permissions assigned yet
Quality chemist	qc.chemist@jivo.in	No permissions assigned yet
Quality manager	qc.manager@jivo.in	No permissions assigned yet
Spare Store	sparestore@jivo.in	No permissions assigned yet

NAME	EMAIL	REASON
Sumit	sumitdewan@jivo.in	No permissions assigned yet
test	test@jivo.in	System test account
Test Notif User	test_notif@example.com	System test account
Test User 2	test_notif2@example.com	System test account

These accounts hold no group permissions, so the system gives them no tasks. Superusers can reach everything but are not tied to a department — they should be given a proper role group.
